Main Ongoing Projects

High School & Beyond (HS&B)

With Chandra Muller, Eric Grodsky, and Sandra Black I am conducting administrative record linkages and follow-up surveys of the sophomore and senior cohorts of HS&B.
(<http://sites.utexas.edu/hsb/>)

Wisconsin Longitudinal Study (WLS)

The WLS has followed 10,317 Wisconsin high school seniors and their families since 1957. I have been involved with the WLS since 1991, first as a research assistant and most recently as an investigator on the 2010 surveys. (<http://www.ssc.wisc.edu/wlsresearch/>)

IPUMS-CPS

I am helping to develop integrated data, dissemination software, and metadata that are making longitudinal analyses of CPS data radically easier. (<https://usa.ipums.org/usa/>)

Linking the 1940 U.S. Census to Five Modern Aging Surveys

I am leading an effort to find respondents to the HRS, the PSID, the WLS, NHATS, and NSHAPS in the 1940 U.S. Census, when they were children living with their families. The resulting data will provide information about respondents' early life social, family, and neighborhood conditions.
